## PETITION FOR EXEMPTION

**Docket No.:** FAA-2016-6581

**Petitioner:** Flight Options, LLC.

**Section(s) of 14 CFR Affected:** 135.25(b)(c)

**Description of Relief Sought:** Flight Options seeks exemption from § 135.25(b), which requires a part 135 certificate holder to have the exclusive use of at least one aircraft that meets the requirements for at least one kind of operation authorized in its operations specifications. In addition, Flight Options seeks exemption from § 135.25(c), which specifies that, for the purposes of § 135.25(b), a person has exclusive use of an aircraft if that person has the sole possession, control, and use of it for flight, as owner, or has a written agreement (including arrangements for performing required maintenance), in effect when the aircraft is operated, giving the person that possession, control, and use for at least 6 consecutive months. In addition, the FAA notes that an exemption from § 135.419 may be relevant to the disposition of this petition. Section 135.419 states that the FAA Administrator may require or allow an approved aircraft inspection program for any make and model aircraft of which the certificate holder has exclusive use of at least one aircraft (as defined in §135.25(b)). Flight Options currently operates 75 turbo jet aircraft all of which are leased aircraft. Flight Options retains responsibility for all maintenance of the aircraft on its part 135 certificates. Additionally, Flight Options maintains a part 145 repair station (No. BTVR626C). Flight Options' business model is for all aircraft also to be operated under 14 CFR part 91K and under part 91 as appropriate. Flight Options currently is in compliance with 14 CFR §§ 135.25(b) and (c) by leasing a B-300 aircraft and maintains it on their part 135 Operations Specifications and utilizes it solely as a part 135 aircraft.
