[Project No. 14757-000]

Energy Resources USA, Inc.; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments and Motions to Intervene

On February 19, 2016, Energy Resources USA, Inc. (Energy Resources) filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the New Savannah Bluff Lock and Dam Hydroelectric Project (project) to be located at the U.S. Army Corps of Engineers' New Savannah Bluff Lock and Dam on the Savannah River in Aiken County, South Carolina. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) a 300-foot-long, 90-foot-wide intake area; (2) a 98-foot-long, 45-foot-wide powerhouse containing two vertical Kaplan turbine-generator units with a total capacity of 8 megawatts; (3) a 350-foot-long, 120-foot-wide tailrace; (4) a 60-foot-long, 50-foot-wide substation; and (5) a 6.54-mile-long, 69 kV transmission line. The estimated annual generation of the project would be 68.5 gigawatt-hours, and would operate as directed by the U.S. Army Corps of Engineers.
