### **FOR FURTHER INFORMATION CONTACT:**

If you have additional comments especially on the estimated public burden or associated response time, suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, please contact Suzanne Strong, Statistician, Prosecution and Judicial Statistics, Bureau of Justice Statistics, 810 Seventh Street NW, Washington, DC 20531 (email: [Suzanne.M.Strong@usdoj.gov](mailto:Suzanne.M.Strong@usdoj.gov); telephone: 202-616-3666).

**SUPPLEMENTARY INFORMATION:** Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Bureau of Justice Statistics, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information collection:

- 1) *Type of Information Collection:* New collection.

2) *The Title of the Form/Collection:* State and Local Justice Agencies Serving PL-280 Tribal Lands (SLJASTL): Survey of State and Local Prosecutor Offices Serving PL-280 Tribal Lands (SSLPOSTL)

3) *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* No agency form number at this time. The applicable component within the Department of Justice is the Bureau of Justice Statistics, in the Office of Justice Programs.

4) *Affected public who will be asked or required to respond, as well as a brief abstract:*

Respondents will be state and local prosecutor offices located in the sixteen Public Law 280 (PL-280) states. *Abstract:* Among other responsibilities, the Bureau of Justice Statistics is charged with collecting data regarding crimes occurring on tribal lands. The SLJASTL is the first effort by BJS to include state and local justice agencies responsible for policing and prosecuting crimes that occur on tribal lands. Specifically, the SSLPOSTL will collect information that will help fill the gaps we have in our understanding of the nature of crime on tribal lands. There are two survey instruments: one for Alaska and one for the remaining fifteen PL-280 states. The data collection instruments are designed to capture administrative, operational and caseload data from prosecutor offices that investigate and prosecute crimes that occur on tribal lands in PL-280 states. The information collected includes the staffing

and budget of the prosecutor office, the types of agreements prosecutor offices have with tribal governments, where prosecutors try crimes occurring on tribal lands (i.e., in tribal or state courts), non-prosecutorial services provided on tribal lands (such as victim services and community outreach services), information sharing with tribal governments, training received by prosecutors about tribal lands, joint training opportunities with state prosecutors and tribes, and the number and types of referrals to and cases prosecuted by state prosecutors. This survey is the first of its kind to describe the role that state and local prosecutor offices play in charging and prosecuting crimes that occur on tribal lands in PL-280 states.

- 5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* An agency-level survey will be sent to approximately 460 offices, including a full census of prosecutor offices in counties with tribal lands (approximately 210) and a sample of prosecutor offices in counties without tribal lands (approximately 250 of the remaining 520). The expected burden placed on these respondents is about 70 minutes per respondent, including follow-up time.
  
- 6) *An estimate of the total public burden (in hours) associated with the collection: **The total respondent burden is approximately 510 burden hours.***
