Tallgrass states that the pipe segments, which loop the 12-inch Palco to Phillipsburg Pipeline where it crosses the South Fork Solomon River and near the Webster Reservoir respectively are redundant and no longer necessary. Abandoning the pipe segments from service will eliminate a potential safety hazard. The proposed abandonment will not result in or cause any interruption, reduction, or termination of transportation service presently rendered by TALLGRASS. Therefore, TALLGRASS proposes to abandon in place the two 12-inch pipe segments.
