SUPPLEMENTARY INFORMATION: President Trump’s Memorandum of January 24, 2017, “Streamlining Permitting and Reducing Regulatory Burdens for Domestic Manufacturing” (82 FR 8667) directs the Secretary of Commerce to conduct outreach to stakeholders concerning the impact of Federal regulations on domestic manufacturing. The Department of Commerce is soliciting comments from the public concerning Federal actions to streamline permitting and reduce regulatory burdens for domestic manufacturers. For the purposes of this effort, “domestic manufacturers” refers to private businesses located in the United States (and its territories) engaged in the mechanical, physical, or chemical transformation of materials, substances, or components into new products, consistent with the 2017 North American Industry Classification System (NAICS) definition of Sector 31-33: Manufacturing.

Responses to this RFI will inform the Secretary’s report to the President which will set forth guidelines for Federal permitting and regulatory agencies to streamline Federal permitting processes for domestic manufacturing and reduce regulatory burdens

affecting domestic manufacturers. The plan will be coordinated with related activities under existing laws (e.g., FAST-41¹) and executive actions (e.g., Executive Order 13771 on “Reducing Regulation and Controlling Regulatory Costs,” (82 FR 9339, Jan. 30, 2017)).

Request for Information

Given the nature and importance of the Presidential Memorandum, the Secretary requests information from stakeholders about how the construction, operation, and expansion of domestic manufacturing facilities are affected by (1) the process of acquiring Federal permits required for the construction, expansion, or operation of such facilities and (2) the burdens of complying with Federal regulations for manufacturing facility construction, expansion, or operation.

Through this RFI, the Department is seeking information from stakeholders (such as manufacturers, trade associations, and other interested parties) about the Federal permitting process and regulatory burdens affecting domestic manufacturing. The Secretary seeks information that will assist the Department in developing a proposal to reduce regulatory burdens and streamline or otherwise improve the permitting process by understanding the cumulative burden of federal regulations and permits and by improving efficiency, transparency, and certainty in the process.

You may respond to any, all or none of the following questions/requests for information, and may address related topics. Please identify the questions or topic areas each of your
