#### B. Submitting Comments.

Please include Docket ID NRC-2016-0183 in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <http://www.regulations.gov> as well as enter the comment submissions into ADAMS, and the NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information

before making the comment submissions available to the public or entering the comment into ADAMS.

## **II. Background.**

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection:* NRC Form 749, "Manual License Verification Report."
2. *OMB approval number:* 3150-0223.
3. *Type of submission:* Extension.
4. *The form number, if applicable:* NRC Form 749.
5. *How often the collection is required or requested:* On occasion. Licensees subject to 10 CFR Part 37, "Physical Protection of Byproduct Material" license verification requirements must verify the legitimacy of the license with the issuing agency prior to transferring radioactive materials in quantities of concern.
6. *Who will be required or asked to respond:* Licensees are required to complete a license verification under the circumstances noted in 4 above. A License Verification System (LVS) is available to provide an electronic method for fulfilling this requirement. In cases where a licensee is unable to use the LVS to perform a verification, they will provide NRC Form 749 for

manual license verification.

7. *The estimated number of annual responses: 456.*

8. *The estimated number of annual respondents: 456.*

9. *The estimated number of hours needed annually to comply with the information collection requirement or request: 46 hours.*

10. *Abstract:* When a licensee is unable to use the License Verification System to perform their license verification prior to transferring radioactive materials in quantities of concern, a manual process is available, in which licensees submit the NRC Form 749, "Manual License Verification Report." The form provides the information necessary for the license issuing agencies to perform the verification on behalf of the licensee transferring the radioactive materials.

### **III. Specific Requests for Comments.**

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the estimate of the burden of the information collection accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated at Rockville, Maryland, this 17<sup>th</sup> day of March 2017.

For the Nuclear Regulatory Commission.

David Cullison,  
NRC Clearance Officer,  
Office of the Chief Information Officer.
