SUPPLEMENTARY INFORMATION:

A. Purpose

The Helium Act (Pub. L. 86-777) (50 U.S.C. 167a, et seq.) and the Department of the Interior's implementing regulations (30 CFR parts 601 and 602) require Federal agencies to procure all major helium requirements from the Bureau of Land Management, Department of the Interior.

FAR 8.5, Acquisition of Helium, and the clause 52.208-8 Required Sources for Helium and Helium Usage Data, requires that the Contractor provide to the Contracting Officer the following data within 10 days after the Contractor or subcontractor receives a delivery of helium from a Federal helium supplier; (i) The name of the supplier; (ii) The amount of helium purchased; (iii) The delivery date(s); and (iv) the location where the helium was used. Such information will facilitate enforcement of the requirements of the Helium Act and the contractual provisions requiring the use of Government helium by agency contractors.

The information is used in administration of certain Federal contracts to ensure contractor compliance with contract clauses. Without the information, the required use of Government helium cannot be monitored and enforced effectively. The FAR requires that the contractor provide helium purchase information 10 days after delivery from a federal helium supplier, not for the contractor to forecast what they are going to purchase.

B. Annual Reporting Burden

In consultation with subject matter experts at the Department of the Interior, Bureau of Land Management, Helium Operations, the number of estimated responses per year was verified as being within an acceptable range, as was the average time required to read and prepare information which was estimated at 1 hour per response.

Respondents: 26.

Responses Per Respondent: 1.

Total Responses: 26.

Hours Per Response: 1.

Total Burden Hours: 26.

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the FAR, and whether it will

have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

OBTAINING COPIES OF PROPOSALS: Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street, NW, Washington, DC 20405, telephone 202-501-4755. Please cite OMB Control No. 9000-0113, Acquisition of Helium, in all correspondence.
