SUPPLEMENTARY INFORMATION:

Title: Modernization of Poultry Slaughter Inspection.

OMB Number: 0583-0156.

Expiration Date of Approval: 9/30/2017.

Type of Request: Renewal of an approved information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary as specified in the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, et seq.). This statute provides that FSIS is to protect the public by verifying that poultry products are safe, wholesome, not adulterated, and properly labeled and packaged.

FSIS is requesting a renewal of the approved information collection regarding poultry slaughter inspection. The approval for this information collection will expire on September 30, 2017. There are no changes to the existing information collection.

FSIS requires that all official poultry slaughter establishments, other than establishments that slaughter ratites, maintain as part of their HACCP plan, sanitation SOP, or other prerequisite program, written procedures addressing (1) the prevention throughout the entire slaughter and dressing operation, of contamination of

carcasses and parts by enteric pathogens (e.g., Salmonella and Campylobacter) and by fecal material, including microbial test results, and (2) the prevention of carcasses and parts contaminated by visible fecal material from entering the chiller. This information was previously collected under the FSIS information collection for Sanitation SOPs and Pathogen Reduction/HACCP (0583-0103). Each establishment operating under the New Poultry Inspection System (NPIS) is required to collect and maintain additional information concerning poultry slaughter:

- as part of the HACCP system, written procedures to prevent carcasses afflicted with septicemia and toxemia from entering the chiller; and
- records that document that the products resulting from slaughter operations meet the definition of ready-to-cook poultry.

Additionally, each establishment operating under the NPIS also needs to submit on an annual basis an attestation to the management member of the local FSIS circuit safety committee stating that it maintains a program to monitor and document any work-related conditions of establishment workers.

FSIS has made the following estimates based upon an

information collection assessment:

Estimate of Burden: FSIS estimates that it will take respondents an average of .125 hours to record results and maintain necessary documentation.

Respondents: Official poultry establishments.

Estimated No. of Respondents: 289

Estimated No. of Annual Responses per Respondent:
5,291.3

Estimated Total Annual Burden on Respondents: 19,204
hours.

Copies of this information collection assessment can be obtained from Gina Kouba, Office of Policy and Program Development, Food Safety and Inspection Service, USDA, 1400 Independence, SW, 6065, South Building, Washington, DC 20250; (202)720-5627.

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of FSIS's functions, including whether the information will have practical utility; (b) the accuracy of FSIS's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways

to minimize the burden of the collection of information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology. Comments may be sent to both FSIS, at the addresses provided above, and the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20253.

Responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, FSIS will announce this Federal Register publication on-line through the FSIS Web page located at:
<http://www.fsis.usda.gov/federal-register>.

FSIS also will make copies of this publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, Federal Register notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The Update is available on the FSIS Web page. Through the Web page,

FSIS is able to provide information to a much broader, more diverse audience. In addition, FSIS offers an e-mail subscription service which provides automatic and customized access to selected food safety news and information. This service is available at:

<http://www.fsis.usda.gov/subscribe>. Options range from recalls to export information, regulations, directives, and notices. Customers can add or delete subscriptions themselves, and have the option to password protect their accounts.
