Proposed Project

Statement in Support of Application for Waiver of Inadmissibility under Immigration and Nationality Act (0920-0006) - Extension - National Center for Emerging and Zoonotic Infectious Diseases (NCEZID), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Section 212(a)(1) of the Immigration and Nationality Act states that aliens with specific health related conditions are ineligible for admission into the United States. The Attorney General may waive application of this inadmissibility on health-related grounds if an application for waiver is filed and approved by the consular office considering the application for visa. CDC uses this application primarily to collect information to establish and maintain records of waiver applicants in order to notify the U.S. Citizenship and Immigration Services when terms, conditions and controls imposed by waiver are not met.

CDC is requesting approval from OMB to collect this data for another three years. Based on a review of the number of waivers processed by CDC over the last three years, CDC does not request a change in the amount of burden. The annualized burden for this data collection is 100 hours.

Respondents must mail these documents to CDC, and this entails an additional cost. CDC estimates that respondents will spend a maximum of \$15 per year on postal fees, for a total of \$3,000 annually.

Estimate of Annualized Burden Hours
