SUPPLEMENTARY INFORMATION: The City of Long Beach Police
Department requested and the bridge owner, Nassau County of
Public Works, concurred with a temporary deviation request
from the normal operating schedule to facilitate a public
fireworks event.

The Long Beach Bridge, mile 4.7, across Reynolds Channel,
has a vertical clearance of 22 feet at mean high water and 24
feet at mean low water in the closed position. The existing
drawbridge operating regulations are listed at 33 CFR
117.799(g).

This temporary deviation will allow the Long Beach Bridge
to remain closed from 9:30 p.m. through 10:30 p.m. on July 7,
2017 with rain dates of July 8, 2017 and July 9, 2017. The
waterway is used primarily by seasonal recreational vessels
and occasional tug/barge traffic. Coordination with waterway
users has indicated no objections to this short-term closure
of the draw.

Vessels that can pass under the bridge without an opening
may do so at all times. The bridge will be able to open for
emergencies. There is no alternate route for vessels to pass.

The Coast Guard will also inform the users of the

waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessel operators can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.
