CMS-10320 Health Care Reform Insurance Web Portal Requirements 45 CFR Part 159

CMS-724 Medicare/Medicaid Psychiatric Hospital Survey Data and Supporting Regulations

Under the PRA (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the Federal Register concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

#### Information Collection

1. Type of Information Collection Request: Extension of a currently approved information collection; Title of Information Collection: Health Care Reform Insurance Web Portal Requirements 45 CFR Part 159; Use: In accordance with the provisions of the ACA referenced above, the U.S. Department of Health and Human Services created a Web site called [healthcare.gov](http://healthcare.gov) to meet these and other provisions of the law, and data collection was conducted for six months based upon an emergency information collection request. The interim final rule published on May 5, 2010 served as the emergency Federal Register notice for the prior information collection request. The Office of Management and Budget (OMB) reviewed the request under emergency processing and approved it on April 30, 2010.

CMS updated the web portal system where state Departments of Insurance and issuers log in

using a custom user ID and password validation. The states are asked to provide information on issuers in their state and various Web sites maintained for consumers. The issuers are also tasked with providing information on their major medical insurance products and plans. They are ultimately given the choice to download a basic information template to enter data then upload into the web portal; to manually enter data within the web portal itself; or to submit .xml files containing their information. Once the states and issuers submit their data, they will receive an email notifying them of any errors, and that their submission was received.

CMS is mandates that issuers verify and update their information on a quarterly basis and requests that States verify State-submitted information on an annual basis. In the event that an issuer enhances its existing plans, proposes new plans, or deactivates plans, the organization would be required to update the information in the web portal. Changes occurring during the three month quarterly periods will be allowed utilizing effective dates for both the plans and rates associated with the plans.
