DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2016-9473; Airspace Docket No. 16-ANM-7]

Proposed Amendment of Class D and Class E Airspace; Cheyenne, WY

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to modify Class D airspace, Class E surface area airspace, Class E airspace extending upward from 700 feet above the surface, and Class E airspace extending upward from 1,200 feet above the surface at Cheyenne Regional/Jerry Olson Field Airport (formerly, Cheyenne Airport), Cheyenne, WY. Airspace redesign is necessary due to the decommissioning of the Cheyenne instrument landing system (ILS) locator outer marker and removal of the Cheyenne VHF Omnidirectional Range/Tactical Air Navigation (VORTAC) from the airspace description as the FAA transitions from ground-based navigation aids to satellite-based navigation. Also, this action would update the airport name and geographic coordinates for Class D and E airspace areas to reflect the FAA's current aeronautical database.

DATES: Comments must be received on or before **[INSERT DATE 45 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER]**.

ADDRESSES: Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, 1200 New Jersey Avenue SE, West Building Ground Floor, Room

W12-140, Washington, DC 20590; telephone: 1-800-647-5527, or (202) 366-9826. You must identify FAA Docket No. FAA-2016-9473; Airspace Docket No. 16-ANM-7, at the beginning of your comments. You may also submit comments through the Internet at <http://www.regulations.gov>.

FAA Order 7400.11, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at http://www.faa.gov/air_traffic/publications/. For further information, you can contact the Airspace Policy Group, Federal Aviation Administration, 800 Independence Avenue SW, Washington, D.C. 20591; telephone: (202) 267-8783. The Order is also available for inspection at the National Archives and Records Administration (NARA). For information on the availability of FAA Order 7400.11A at NARA, call (202) 741-6030, or go to http://www.archives.gov/federal_register/code_of_federal-regulations/ibr_locations.html.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

FOR FURTHER INFORMATION CONTACT: Tom Clark, Federal Aviation Administration, Operations Support Group, Western Service Center, 1601 Lind Avenue SW, Renton, WA 98057; telephone (425) 203-4511.

SUPPLEMENTARY INFORMATION:

Authority for this Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle

VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend Class D and Class E airspace at Cheyenne Regional/Jerry Olson Field Airport, Cheyenne, WY to support instrument flight rules operations at the airport.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Persons wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2016-9473/Airspace Docket No. 16-ANM-7." The postcard will be date/time stamped and returned to the commenter.

All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of the comments received. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

An electronic copy of this document may be downloaded through the Internet at <http://www.regulations.gov>. Recently published rulemaking documents can also be accessed through the FAA's web page at http://www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the "ADDRESSES" section for the address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays. An informal docket may also be examined during normal business hours at the Northwest Mountain Regional Office of the Federal Aviation Administration, Air Traffic Organization, Western Service Center, Operations Support Group, 1601 Lind Avenue SW, Renton, WA 98057.

Availability and Summary of Documents Proposed for Incorporation by Reference

This document proposes to amend FAA Order 7400.11A, Airspace Designations and Reporting Points, dated August 3, 2016, and effective September 15, 2016. FAA Order 7400.11A is publicly available as listed in the ADDRESSES section of this document. FAA Order 7400.11A lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 by modifying Class D airspace, Class E surface area airspace, Class E airspace extending upward from 700 feet above the surface, and Class E airspace extending upward from 1,200 feet above the surface at Cheyenne Regional/Jerry Olson Field Airport,

Cheyenne, WY. This action would also update the airport name to Cheyenne Regional/Jerry Olson Field Airport (from Cheyenne Airport).

Class D airspace would be amended by removing the segment on each side of the Cheyenne ILS localizer east course extending from the 5.6-mile radius to the outer marker.

Class E surface area airspace would be modified coincident with the Class D airspace, and effective during the times the Class D is not in effect.

Class E airspace extending upward from 700 feet above the surface would be modified to within an 8.1-mile radius (from 12.2 miles) of Cheyenne Regional/Jerry Olson Field Airport, and within a 9.1-mile radius of the airport from a 240° bearing from the airport clockwise to the 300° bearing from the airport with a segment on each side of a 275° bearing from the airport extending from the airport 9.1-mile radius to 10.6 miles west of the airport, and with another segment on each side of a 028° bearing from the airport extending from the airport 8.1 mile radius to 10.8 miles northeast of the airport. The airspace extending upward from 1,200 feet above the surface would be modified to within a 43.6 mile radius of the airport (from a polygon of similar area) to provide controlled airspace for diverse departures until reaching the overlying Class E airspace.

This proposed airspace redesign is necessary due to the decommissioning of the Cheyenne ILS outer marker, removal of the Cheyenne VORTAC from the airspace description, and the availability of diverse departure headings as the FAA transitions from ground-based navigation aids to satellite-based navigation. Also, this action would update the airport's geographic coordinates for Class D and E airspace areas to reflect the FAA's current aeronautical database. Finally, this action would make an editorial change in the legal description by replacing Airport/Facility Directory with the term Chart Supplement.

Class D and Class E airspace designations are published in paragraph 5000, 6002, and 6005, respectively, of FAA Order 7400.11A, dated August 3, 2016 and effective September 15, 2016, which is incorporated by reference in 14 CFR 71.1. The Class D and Class E airspace designations listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71 - DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of FAA Order 7400.11A, Airspace Designations and Reporting Points, dated August 3, 2016, and effective September 15, 2016, is amended as follows:

Paragraph 5000. Class D Airspace.

* * * * *

ANM WY D Cheyenne, WY [Amended]

Cheyenne Regional/Jerry Olson Field Airport, WY
(lat. 41°09'20" N, long. 104°48'38" W)

That airspace extending upward from the surface to and including 8,700 feet MSL within a 5.6-mile radius of Cheyenne Regional/Jerry Olson Field Airport. This Class D airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Chart Supplement.

Paragraph 6002. Class E Airspace Designated as Surface Areas.

* * * * *

ANM WY E2 Cheyenne, WY [Amended]

Cheyenne Regional/Jerry Olson Field Airport, WY
(lat. 41°09'20" N, long. 104°48'38" W)

That airspace extending upward from the surface within a 5.6-mile radius of Cheyenne Regional/Jerry Olson Field Airport. This Class E airspace area is effective during the

specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Chart Supplement.

Paragraph 6005. Class E Airspace Areas Extending Upward from 700 feet or More Above the Surface of the Earth.

* * * * *

ANM WY E5 Cheyenne, WY [Amended]
Cheyenne Regional/Jerry Olson Field Airport, WY
(lat. 41°09'20" N, long. 104°48'38" W)

That airspace extending upward from 700 feet above the surface within an 8.1-mile radius of Cheyenne Regional/Jerry Olson Field Airport from the 300° bearing from the airport clockwise to the 240° bearing, and within a 9.1-mile radius of the airport from the 240° bearing from the airport clockwise to the 300° bearing from the airport, and within 2.2 miles each side of the 275° bearing from the airport extending from the airport 9.1-mile radius to 10.6 miles west of the airport, and within 2.4 miles each side of a 028° bearing from the airport extending from the airport 8.1 mile radius to 10.8 miles northeast of the airport; and that airspace extending upward from 1,200 feet above the surface within a 43.6-mile radius of the airport.

Issued in Seattle, Washington, on May 22, 2017.

Sam S.L. Shrimpton,
Acting Group Manager,
Operations Support Group,
Western Service Center.
