SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the Periodic Medical Surveillance Examinations for Coal Miners information collection requirements codified in regulations 30 CFR 72.100(d) and (e). More specifically, this ICR covers requirements for each mine operator to develop and submit for approval for National Institute for Occupational Safety and Health (NIOSH) a plan in accordance with 42 CFR part 37 for providing miners with the required periodic examinations specified in 30 CFR 72.100(a) and a roster specifying the name and current address of each miner covered by the plan. Section 72.100(e) requires that each mine operator must post on the mine bulletin board at all times the approved plan for providing the examinations specified in 72.100(a). This information collection has been classified as a revision, because the agency has previously incorporated added information collection requirements also covered by this collection, including the associated burdens, to other approved information collections. In order not to double count those burdens,

this collection would now drop those requirements from this collection. Federal Mine Safety and Health Act of 1977 sections 101(a) and 103(h) authorize this information collection. See 30 U.S.C. 811(a), 813(h).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219-0152. The current approval is scheduled to expire on May 31, 2017; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the Federal Register on March 14, 2017 (82 FR 13658).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the ADDRESSES section within thirty (30) days of publication of this notice in the Federal Register. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1219-0152. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
