While HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this Order is dispositive.

Methodology

The Department is conducting this review in accordance with section 751(a)(1)(A) of the Tariff Act of 1930, as amended (the Act). For each of the subsidy programs found countervailable, the Department preliminarily determines that there is a subsidy, *e.g.*, a financial contribution by an “authority” that confers a benefit, and that the subsidy is specific.⁷

For a full description of the methodology underlying our preliminary conclusions, including our reliance, on adverse facts available pursuant to sections 776(a) and (b) of the Act, *see* the Preliminary Decision Memorandum. As explained in the Preliminary Decision

⁷ *See* sections 771(5)(B) and (D) of the Act regarding financial contribution; section 771(5)(E) of the Act regarding benefit; and section 771(5A) of the Act regarding specificity.

Memorandum, the Department relied on adverse facts available because the Government of China (GOC) and both of the mandatory respondents did not act to the best of their ability in responding to the Department's requests for information, and consequently, has drawn an adverse inference, where appropriate, in selecting from among the facts otherwise available.⁸ For further information, *see* "Use of Facts Otherwise Available and Adverse Inferences" in the Preliminary Decision Memorandum.

Rescission of Review, In Part

For those companies named in the *Initiation Notice* for which all review requests have been timely withdrawn, we are rescinding this administrative review in accordance with 19 CFR 351.213(d)(1). These companies are listed at Appendix II to this notice. For these companies, countervailing duties shall be assessed at rates equal to the rates of the cash deposits for estimated countervailing duties required at the time of entry, or withdrawal from warehouse, for consumption, during the POR, in accordance with 19 CFR 351.212(c)(2).

Also, between July 25, 2016 and August 8, 2016 the Department timely received no-shipment certifications from eight companies.⁹ However, these companies were also included in the Petitioner's timely withdrawal of its review requests, and because no party other than the petitioner requested a review of these companies, the Department is rescinding the administrative review of these companies pursuant to 19 CFR 351.213(d)(1).¹⁰

Preliminary Rate for the Non-Selected Companies Under Review

The statute and the Department's regulations do not directly address the establishment of rates to be applied to companies not selected for individual examination where the Department

limits its examination in an administrative review pursuant to section 777A(e)(2) of the Act. However, the Department normally determines the rates for cooperative non-selected companies in reviews in a manner that is consistent with sections 703(d) and 705(c)(5)(A) of the Act, which provide that the Department shall determine an estimated all-others rate for companies not individually examined. This rate shall be an amount equal to the weighted average of the estimated subsidy rates established for those companies individually examined, excluding any zero and *de minimis* rates and any rates based entirely on facts available under section 776 of the Act. However, if the countervailable subsidy rates established for all exporters and producers individually investigated are zero or *de minimis*, or are determined entirely based on facts available under section 776 of the Act, the Department may use any reasonable method to establish the all-others rate. In past reviews, the Department has determined that a reasonable method to use when all the rates of selected mandatory respondents are zero, *de minimis* or determined entirely on facts available, is to assign non-selected respondents the average of the most recently determined rates that are not zero, *de minimis*, or based entirely on facts available.¹¹ Because all individually calculated rates in this review are based entirely on facts available, we have preliminarily based the rate for cooperative non-selected companies on the rate established for cooperative non-selected companies in *Aluminum Extrusions 2014 Review*,¹² which is the average of the most recently determined rates established for cooperative

For all non-reviewed firms, we will instruct CBP to collect cash deposits of estimated countervailing duties at the most recent company-specific or all-others rate applicable to the company, as appropriate. These cash deposit requirements, when imposed, shall remain in effect until further notice.
