- i. FERC Contact: John Baummer at (202) 502-6837 or email at [john.baummer@ferc.gov](mailto:john.baummer@ferc.gov).
- j. Cooperating agencies: Federal, state, local, and tribal agencies with jurisdiction and/or special expertise with respect to environmental issues that wish to cooperate in the preparation of the environmental document should follow the instructions for filing such requests described in item o below. Cooperating agencies should note the Commission's policy that agencies that cooperate in the preparation of the environmental document cannot also intervene. *See* 94 FERC ¶ 61,076 (2001).

- k. With this notice, we are initiating informal consultation with: (a) the U.S. Fish and Wildlife Service and/or NOAA Fisheries under section 7 of the Endangered Species Act and the joint agency regulations thereunder at 50 CFR, Part 402 and (b) the State Historic Preservation Officer, as required by section 106, National Historic Preservation Act, and the implementing regulations of the Advisory Council on Historic Preservation at 36 CFR 800.2.
- l. With this notice, we are designating Algonquin as the Commission's non-federal representative for carrying out informal consultation, pursuant to section 7 of the Endangered Species Act and section 106 of the National Historic Preservation Act.
- m. The current license for the Squa Pan Project was issued with an effective date of December 4, 1991, for a term of 30 years and expires on December 3, 2021. Section 5.5(d) of the Commission's regulations provides that an existing licensee must file its Notice of Intent (NOI) no later than five years before the expiration of the license; therefore the date for Algonquin to file its NOI was December 3, 2016. Algonquin filed a Notice of Intent to File License Application (NOI) on December 8, 2016, along with a request for an extension until August 2017 to file a Pre-Application Document (PAD). No other entity filed an NOI or PAD.

On January 5, 2017 the Commission issued a Notice of Existing Licensee's Failure to File Notice of Intent to File a New License Application. The notice set a deadline of 120 days from the issuance date for Algonquin and competing applicants to file NOIs, PADs and requests to use an alternative licensing process. The notice also denied Algonquin's request for an extension until August 2017 to file a PAD because it would unreasonably shorten the time available for preparation of a license application and/or conducting necessary studies.

On May 1, 2017, Algonquin filed an updated NOI and PAD, pursuant to 18 CFR 5.6 of the Commission's regulations. No other entity filed an NOI, PAD or request to use an alternative licensing process.

Because the licensee states its unequivocal intent to submit an application for a new license for Project No. 2368, and no other entity has filed an NOI, PAD, or request for an alternative licensing process, the Commission intends to waive section 16.24(a) of the Commission's regulations, and allow Algonquin to file an application for a new license for the project. The Commission's process plan and schedule for relicensing Project No.

2368 can be found in Appendix B of Scoping Document 1, issued concurrently with this notice.

- n. A copy of the PAD is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's website (<http://www.ferc.gov>), using the eLibrary link. - o. With this notice we are soliciting comments on the PAD and Commission's staff Scoping Document 1 (SD1), as well as study requests. All comments on the PAD and SD1, and study requests should be sent to the address above in paragraph h. In addition, all comments on the PAD and SD1, study requests, requests for cooperating agency status, and all communications to and from Commission staff related to the merits of the potential application must be filed with the Commission.

The Commission strongly encourages electronic filing. Please file all documents using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov). In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888 First Street, NE, Washington, D.C. 20426. The first page of any filing should include docket number P-2368-056.

All filings with the Commission must bear the appropriate heading: Comments on Pre-Application Document, Study Requests, Comments on Scoping Document 1, Request for Cooperating Agency Status, or Communications to and from Commission Staff. Any individual or entity interested in submitting study requests, commenting on the PAD or SD1, and any agency requesting cooperating status must do so by August 29, 2017.

- p. Although our current intent is to prepare an environmental assessment (EA), there is the possibility that an Environmental Impact Statement (EIS) will be required. Nevertheless, this meeting will satisfy the NEPA scoping requirements, irrespective of whether an EA or EIS is issued by the Commission.

At the scoping meetings, staff will: (1) initiate scoping of the issues; (2) review and discuss existing conditions and resource management objectives; (3) review and discuss existing information and identify preliminary information and study needs; (4) review and discuss the process plan and schedule for pre-filing activity that incorporates the time frames provided for in Part 5 of the Commission's regulations and, to the extent possible, maximizes coordination of federal, state, and tribal permitting and certification processes; and (5) discuss the appropriateness of any federal or state agency or Indian tribe acting as a cooperating agency for development of an environmental document.

Meeting participants should come prepared to discuss their issues and/or concerns. Please review the PAD in preparation for the scoping meetings. Directions on how to obtain a copy of the PAD and SD1 are included in item n. of this document.
