APPLICATIONS

On January 18, 2017, Merchant Hydro Developers, LLC, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Armenia Pumped Storage Hydro Project to be located near Sullivan Township in Tioga County, Pennsylvania. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) a new upper reservoir with a surface area of 55 acres and a storage capacity of 825 acre-feet at a surface elevation of approximately 2,300 feet above mean sea level (msl) created through construction of a new roller-compacted concrete or rock-fill dam; (2) a new lower reservoir with a surface area of 25 acres and a storage capacity of 990 acre-feet at a surface elevation of 1,700 feet msl; (3) a new 3,568-foot-long, 48-inch-diameter penstock connecting the upper and lower reservoirs; (4) a new 150-foot-long, 50-foot-wide, 25-foot-high powerhouse containing two turbine-generator units with a total rated capacity of 41 megawatts; (5) a new transmission line connecting the powerhouse to the Armenia Mountain Wind Farm owned by EDP Renewables North America, LLC; and (6) appurtenant facilities. The proposed project would have an annual generation of 148,121 megawatt-hours.
