**[FRL - 9964-92-Region 6]**

### **Underground Injection Control Program; Hazardous Waste Injection Restrictions; Petition for Exemption Reissuance - Class I Hazardous Waste Injection; Vopak Logistics Services USA Inc. Deer Park, Texas**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of a final decision on a UIC no migration petition reissuance.

**SUMMARY:** Notice is hereby given that a reissuance of an exemption to the Land Disposal Restrictions, under the 1984 Hazardous and Solid Waste Amendments to the Resource Conservation and Recovery Act, has been granted to Vopak for one Class I hazardous waste injection well located at their Deer Park, Texas facility. The company has adequately demonstrated to the satisfaction of the Environmental Protection Agency by the petition reissuance application and supporting documentation that, to a reasonable degree of certainty, there will be no migration of hazardous constituents from the injection zone for as long as the waste remains hazardous. This final decision allows the underground injection by Vopak of the specific restricted hazardous wastes identified in this exemption reissuance, into Class I hazardous waste injection Well WDW-157 until December 31, 2030, unless EPA moves to terminate this exemption or other petition condition limitations are reached. Additional conditions included in this final decision may be reviewed by contacting the Region 6 Ground Water/UIC Section. A public notice was issued May 3, 2017, and the public comment period closed on June 19, 2017, and no comments were received. This decision constitutes final

Agency action and there is no Administrative appeal. This decision may be reviewed/appealed in compliance with the Administrative Procedure Act.

**DATES:** This action is effective as of June 23, 2017.

**ADDRESSES:** Copies of the petition reissuance and all pertinent information relating thereto are on file at the following location:
