B. Submitting Comments.

Please include Docket ID NRC-2017-0127 in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <http://www.regulations.gov> as well as enter the comment submissions into ADAMS, and the NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection: 10 CFR Part 36 "Licenses and Radiation Safety Requirements for Irradiators"*
2. *OMB approval number: 3150-0158*
3. *Type of submission: Extension*
4. *The form number, if applicable: N/A*

5. *How often the collection is required or requested: Applications for new licenses and amendments may be submitted at any time (on occasion). Applications for renewal are submitted every 10 years. Reports are submitted as events occur.*
6. *Who will be required or asked to respond: Applicant for and holders of specific licenses authorizing the use of licensed radioactive material for irradiators*
7. *The estimated number of annual responses: 2,389*
8. *The estimated number of annual respondents: 70*
9. *The estimated number of hours needed annually to comply with the information collection requirement or request: 42,612*
10. *Abstract: Part 39 of Title 10 of the Code of Federal Regulations (10 CFR), establishes radiation safety requirements for the use of radioactive material for irradiators. The information in the applications, reports and records is used by the NRC staff to ensure that the health and safety of the public is protected and that the licensee possession and use of source or byproduct material is in compliance with license and regulatory requirements.*

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the estimate of the burden of the information collection accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated at Rockville, Maryland, this 20th day of July 2017.

For the U.S. Nuclear Regulatory Commission.

David Cullison,

NRC Clearance Officer,

Office of the Chief Information Officer.
