[Docket No. FSIS-2017-0031]

Notice of Request for Revision of an Approved Information Collection (Salmonella Initiative Program)

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 and Office of Management and Budget (OMB) regulations, the Food Safety and Inspection Service (FSIS) is announcing its intention to request a revision of the approved information collection related to the Salmonella Initiative Program (SIP). The approval for this information collection will expire on January 31, 2018. Based on a decrease in the number of SIP approvals that occurred as a result of the implementation of the New Poultry Inspection System, FSIS has decreased its total annual burden estimate by 45,511 hours.

DATES: Submit comments on or before [INSERT DATE 60 DAYS AFTER PUBLICATION IN THE FEDERAL REGISTER].

ADDRESSES: FSIS invites interested persons to submit comments on this information collection. Comments may be submitted by one of the following methods:

SUPPLEMENTARY INFORMATION:

Title: Salmonella Initiative Program.

OMB Number: 0583-0154.

Expiration Date of Approval: 01/31/2018

Type of Request: Revision of an approved information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary (7 CFR 2.18, 2.53) as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, et seq.), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, et seq.), and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, et seq.). FSIS protects the public by verifying that meat, poultry, and egg products are safe, wholesome, not adulterated, and correctly labeled and packaged.

The Salmonella Initiative Program (SIP) offers incentives to meat and poultry slaughter establishments to control Salmonella in their operations. SIP does this by granting waivers of certain regulatory requirements with the condition that establishments test for Salmonella,

Campylobacter (if applicable), and generic Escherichia coli or other indicator organisms and share all sample results with FSIS. SIP benefits public health because it encourages establishments to test for microbial pathogens, which is a key feature of effective process control.

In return for meeting the conditions of SIP, the Agency grants establishments appropriate waivers of certain regulatory requirements, based upon establishment proposals and documentation, under FSIS regulations at 9 CFR 303.1(h) and 381.3(b). These regulations specifically provide for the Administrator to waive for limited periods any provisions of the regulations to permit experimentation so that new procedures, equipment, or processing techniques may be tested to facilitate definite improvements. Establishments participating in SIP agree to the conditions of SIP regarding pathogen testing and sharing of test result data with FSIS.

FSIS is requesting a revision of the approved information collection related to SIP. The approval for this information collection will expire on January 31, 2018. Based on a decrease in the number of SIP approvals that occurred as a result of the implementation of the New Poultry Inspection System, FSIS has decreased its total annual burden estimate by 45,511 hours.

FSIS has made the following estimates based upon an information collection assessment:

Estimate of Burden: FSIS estimates that it will take respondents an average of .69 hours per response.

Respondents: Official slaughter establishments that are under a waiver.

Estimated No. of Respondents: 37.

Estimated No. of Annual Responses per Respondent: 325.

Estimated Total Annual Burden on Respondents: 8,265 hours.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Copies of this information collection assessment can be obtained from Gina Kouba, Office of Policy and Program Development, Food Safety and Inspection Service, USDA, 1400 Independence, SW, 6065, South Building, Washington, DC 20250; (202)720-5627.

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of FSIS's functions, including whether the information will have practical utility; (b) the accuracy of FSIS's estimate of the burden of the proposed collection of information, including the validity of the methodology and

assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology.

Comments may be sent to both FSIS, at the addresses provided above, and the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20253.

Responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, FSIS will announce this Federal Register publication on-line through the FSIS Web page located at:
