SUPPLEMENTARY INFORMATION:

I. Background

The MRB is composed of five medical experts who each serve two-year terms. Section 4116 of SAFETEA-LU requires the Secretary of Transportation, with the advice of the MRB and the chief medical examiner, to establish, review, and revise “medical standards for operators of commercial motor vehicles that will ensure that the physical condition of operators of commercial motor vehicles is adequate to enable them to operate the vehicles safely.” The MRB operates in accordance with FACA under the terms of its charter, filed November 25, 2015.

On January 15, 2013, FMCSA announced in a Notice of Final Disposition entitled, *Qualification of Drivers; Exemption Applications; Epilepsy and Seizure Disorders*, (78 FR 3069), its decision to grant requests from 22 individuals for exemptions from the regulatory requirement that interstate CMV drivers have “no established medical history or clinical diagnosis of epilepsy or any other condition which is likely to cause loss of consciousness or any loss of ability to control a CMV.” Since the January 15, 2013, notice, the Agency has published

additional notices granting requests from individuals for exemptions from the regulatory requirement regarding epilepsy found in 49 CFR 391.41(b)(8).

In reaching the decision to grant exemption requests, FMCSA considers the 2007 recommendations of the Agency's Medical Expert Panel (MEP). The January 15, 2013, Federal Register notice (78 FR 3069) provides the current MEP recommendations, which is the criteria the Agency uses to grant seizure exemptions.

The Agency's decision regarding exemption applications is based on an individualized assessment of each applicant's medical information, including the following: the root cause of the respective seizure(s) and medical information about the applicant's seizure history; the length of time that has elapsed since the individual's last seizure; the stability of each individual's treatment regimen; and the duration of time on or off anti-seizure medication. In addition, the Agency reviews the treating clinician's medical opinion related to the ability of the driver to operate a CMV safely with a history of seizure and each applicant's driving record found in the Commercial Driver's License Information System (CDLIS) for commercial driver's license (CDL) holders, and interstate and intrastate inspections recorded in the Motor Carrier Management Information System (MCMIS). For non-CDL holders, the Agency reviews the driving records from the State Driver's Licensing Agencies (SDLAs).
