Abstract: This ICR estimates the burden and costs associated with the information collection requirements of the NPDES program, identifies the types of activities regulated under the NPDES program, describes the roles and responsibilities of state governments and the Agency, and presents the program areas that address the various types of regulated activities. This renewal also incorporates the burden and costs for seven more NPDES programs, which were previously contained in separate ICRs, including: Consolidated Animal Sectors (OMB Control No. 2040-0250; EPA ICR Number 1989.09); Pesticide Applicators (OMB Control No. 2040-0284; EPA ICR Number 2397.02); National Pretreatment Program (OMB Control No. 2040-

0009; EPA ICR Number 0002.15); Cooling Water Intake Structures Phase I - New Facilities (OMB Control No. 2040-0241; EPA ICR Number 1973.06); Cooling Water Intake Structures at Phase III Facilities (OMB Control No. 2040-0268, EPA ICR No. 2169.05); Cooling Water Intake Structures Existing Facilities (OMB Control No. 2040-0257; EPA ICR No. 2060.07); and NPDES Electronic Reporting Rule (OMB Control No. 2020-0035; EPA ICR No. 2468.02).

Permit applications and other respondent reports may contain confidential business information. If a respondent does consider this information to be of a confidential nature, the respondent may request that such information be treated as confidential. All confidential data will be handled in accordance with 40 CFR 122.7, 40 CFR part 2, and EPA's Security Manual part III, chapter 9, dated August 9, 1976.

Respondents/affected entities: Any industrial point source discharger of pollutants, including but not limited to publicly owned and privately owned treatment works (POTWs and PrOTWs), industrial dischargers to POTWs and PrOTWs, sewage sludge management and disposal operations, small and large vessels, airports with deicing operations, dischargers of stormwater, construction sites, municipalities, pesticide applicators, local and state governments.

Respondent's obligation to respond: Mandatory. Sections 301, 302, 304, 306, 307, 308, 316(b), 401, 402, 403, 405, and 510 of the CWA; the 1987 Water Quality Act (WQA) revisions to CWA section 402(p); 40 (CFR) Parts 122, 123, 124, and 125 (and Parts 501 and 503 for Biosolids); and the Great Lakes Critical Programs Act (CPA).

Estimated number of respondents: 935,020 total (934,383 permittees and 637 States/Tribes/Territories).

Frequency of response: Varies depending on the specific response activity and can range from ongoing and monthly to once every 5 years.

Total estimated burden: 28,239,262 hours (per year). Burden is defined at 5 CFR 1320.03(b)

Total estimated cost: \$1,476,244,044 (per year), includes \$43,659,009 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a net increase of 836,289 (3%) hours in the total estimated respondent burden compared with the combined burden of the component ICRs currently approved by OMB. This change in the total is primarily due to a combination of both burden increases and decreases in the component ICRs. Minor changes in the estimated burden occurred for five of the eight component ICRs (NPDES ICR, Pesticide Applicators ICR, National Pretreatment Program ICR, Cooling Water Intake Structures Phase I New Facilities ICR, and the Cooling Water Intake Structures Phase III Facilities ICR). Significant changes occurred for three of the eight component ICRs (Consolidated Animal Sectors ICR, Cooling Water Intake Structures Existing Facility ICR, and Electronic Reporting Rule ICR). These significant changes included: 1) a decrease of 12 percent in the animal sector labor burden due to revised EPA estimates based on changes in industry practice, adherence to USDA guidelines, and industry consolidation (OMB Control No. 2040-0250); 2) an increase of 140 percent in the cooling water intake structures existing facilities labor burden due to the coincidence of the period of greatest implementation burden with the three year ICR period (OMB Control No. 2040-0257); and 3) a decrease of 164 percent in the electronic reporting rule labor burden due to the reduced need for data input due to increased participation in electronic filing of forms and reports as the rule is implemented (OMB Control No. 2020-0035).
