NS seeks to discontinue control point (CP) East End Avenue on the CNO&TP District at milepost (MP) 337.2, Central Division, Chattanooga, TN.

CP East End Avenue will be removed from service. All associated signal equipment, existing power switches, movable point frogs and slip switches will be retired or converted to hand operation. Zero track is currently governed by Rule 261. Cavalier and AGS# 2 track will become yard leads and be governed under Yard Limit Rule 93. AGS #1 will be renamed Main #

2 and CNO&TPO Main will be renamed Main # 1; both will remain governed by Rule 261.

NS states the reason for proposed change is as part of the rationalization, reconfiguration, and implementation of positive train control through the Chattanooga, TN, area between CP Pratt and CP 23rd Street.
