Qualification of Drivers; Exemption Applications; Diabetes

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of final disposition.

SUMMARY: FMCSA announces its decision to renew exemptions for 127 individuals from its prohibition in the Federal Motor Carrier Safety Regulations (FMCSRs) against persons with insulin-treated diabetes mellitus (ITDM) from operating commercial motor vehicles (CMVs) in interstate commerce. The exemptions enable these individuals with ITDM to continue to operate CMVs in interstate commerce.

DATES: Each group of renewed exemptions were applicable on the dates stated in the discussions below and will expire on the dates stated in the discussions below.

II. Background

On July 27, 2017, FMCSA published a notice announcing its decision to renew exemptions for 127 individuals from the insulin-treated diabetes mellitus prohibition in 49 CFR 391.41(b)(3) to operate a CMV in interstate commerce and requested comments from the public (82 FR 35029). The public comment period ended on August 28, 2017, and one comment was received.

As stated in the previous notice, FMCSA has evaluated the eligibility of these applicants and determined that renewing these exemptions would achieve a level of safety equivalent to or greater than the level that would be achieved by complying with the current regulation 49 CFR 391.41(b)(3).

The physical qualification standard for drivers regarding diabetes found in 49 CFR 391.41(b)(3) states that a person is physically qualified to drive a CMV if that person:

Has no established medical history or clinical diagnosis of diabetes mellitus currently requiring insulin for control.

III. Discussion of Comments

FMCSA received one comment in this preceding. An anonymous commenter stated they believe the rule preventing drivers with ITDM operating CMVs in interstate commerce should be removed and the medical examiners should determine whether a driver is fit to operate a CMV in interstate commerce. On May 4, 2015, FMCSA published a Notice of Proposed Rulemaking (NPRM) (80 FR 25260) proposing changes to the Diabetes standard and requesting comments from the public. FMCSA is currently evaluating comments received and drafting a Final Rule. Information related to this action can be found in the Docket at FMCSA-2005-23151.

IV. Conclusion
