[Docket No. FAA-2017-0296; Airspace Docket No. 17-ACE-7]

Amendment of Class E Airspace; Oskaloosa, IA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; correction.

SUMMARY: This action corrects a final rule published in the **Federal Register** of August 28, 2017 that modifies E airspace extending upward from 700 feet above the surface at Oskaloosa Municipal Airport, Oskaloosa, IA, to accommodate new standard instrument approach procedures for instrument flight rules (IFR) operations at the airport. The FAA identified that the reference to the Ottumwa, IA Class E airspace was not removed from the legal description as it should have been.

DATES: Effective 0901 UTC, December 7, 2017. The Director of the Federal Register approves this incorporation by reference action under Title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:

History

The FAA published a final rule in the FEDERAL REGISTER (82 FR 40692, August 28, 2017) Docket No. FAA-2017-0296; corrected (82 FR 47098, October 11, 2017), Docket No. FAA-2017-0315, modifying Class E airspace extending upward from 700 feet above the surface at Oskaloosa Municipal Airport, Oskaloosa, IA.

Subsequent to publication, The FAA found that reference to the Ottumwa, IA Class E airspace was inadvertently left in the airspace description. This action removes the wording from the legal description.

Class E airspace designations are published in paragraph 6005, respectively, of FAA Order 7400.11B, dated August 2, 2017, and effective September 15, 2017, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.
