SUPPLEMENTARY INFORMATION:

A. Purpose

Federal Acquisition Regulation clause 52.223-2, Affirmative Procurement of Biobased Products Under Service and Construction Contracts, requires prime contractors to report annually the product types and dollar values of U.S. Department of Agriculture (USDA)-designated biobased products purchased to the System for Award Management (SAM) website. The information reported by prime contractors enables Federal agencies to report annually to the Office of Federal Procurement Policy (OFPP) concerning actions taken to implement and measure progress in carrying out the preference for biobased products required under section 9002 of the Farm Security and Rural Investment Act of 2002, codified at 7 U.S.C. 8102.

B. Annual Reporting Burden

To determine the number of contractors performing construction and service contracts that may involve the purchase of USDA-designated biobased products, fiscal year 2016 data in the Federal Procurement Data System (FPDS) was reviewed to calculate the number of entities with unique DUNS numbers that were awarded contracts for the following selected Product Services Codes: A-Research and Development; F-Natural Resources Management; J-Maintenance, Repair, and Rebuilding of Equipment; M-Operation of Government-Owned Facility; S-Utilities and Housekeeping Services; T-Photographic, Mapping, Printing, and Publication Services; Y-Construction of Structures and Facilities; and Z-Maintenance, Repair or Alteration of Real Property. The clause at FAR 52.223-2 will apply to the majority of the contract actions in the selected PSCs. The estimated total burden is as follows:

Respondents: 51,457.

Responses Per Respondent: 5.

Total Annual Responses: 257,285.

Hours Per Response: 5.

Total Burden Hours: 1,286,425.

Affected Public: Businesses or other for-profit and not-for-profit institutions.

Frequency: Annually

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the FAR, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

OBTAINING COPIES OF PROPOSALS: Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street, NW, Washington, DC 20405, telephone 202-501-4755.

Please cite OMB Control No. 9000-0180, Affirmative Procurement of Biobased Procurements Under Services and Construction Contracts, in all correspondence.
