National Highway Traffic Safety Administration

**Title:** 49 CFR Part 564-Replaceable Light Source Dimensional Information Collection.

**OMB Number:** 2127-0563.

**Type of Request:** Request for public comment on a previously approved collection of information.

**Abstract:** The information to be collected is in response to 49 CFR part 564, "Replaceable Light Source Dimensional Information." Persons desiring to use newly designed replaceable headlamp light sources are required to submit interchangeability and performance specifications to the agency. After a short agency review to assure completeness, the information is placed in a public docket for use by any person who would like to manufacture headlamp light sources for highway motor vehicles. In Federal Motor Vehicle Safety Standard No. 108, Lamps, reflective devices and associated equipment, "Part 564 submissions" are referenced as being the source of information regarding the performance and interchangeability information for legal headlamp light sources, whether original equipment or replacement equipment. The submitted information

about headlamp light sources becomes the basis for certification of compliance with safety standards.

NHTSA anticipates approximately 7 bulb manufacturers will be affected by these reporting requirements. NHTSA does not believe that any of these manufacturers are a small business (i.e., one that employs less than 500 persons) since each manufacturer employs more than 500 persons.

**Affected Public:** Businesses or other profit organizations.

**Estimated Total Annual Burden:** NHTSA estimates that the manufacturers will incur a total annual reporting hour of 28 hours.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology. A comment to OMB is most effective if OMB receives it within 30 days of publication.

**Authority:** Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35; delegation of authority at 49 CFR 1.95.
