be available for public examination and copying at the NIOSH Docket Office, 1150 Tusculum Avenue, Room 155, Cincinnati, OH 45226-1998.

FOR FURTHER INFORMATION CONTACT Emily Novicki

(NORACoordinator@cdc.gov), National Institute for Occupational Safety and Health, Centers for Disease Control and Prevention, Mailstop E-20, 1600 Clifton Road N.E., Atlanta, GA 30329, phone (404) 498-2581 (not a toll free number).

SUPPLEMENTARY INFORMATION: The National Occupational Research Agenda (NORA) is a partnership program created to stimulate innovative research and improved workplace practices. The national agenda is developed and implemented through the NORA sector and cross-sector councils. Each council develops and maintains an agenda for its sector or cross-sector.

Background: The National Occupational Research Agenda for Traumatic Injury Prevention (the Agenda) is intended to identify the research, information, and actions most urgently needed to prevent occupational traumatic injuries. The National Occupational Research Agenda for Traumatic Injury Prevention provides a vehicle for industry stakeholders to describe the most relevant issues, gaps,

and safety and health needs for the cross-sector. Each NORA research agenda is meant to guide or promote high priority research efforts on a national level, conducted by various entities, including government, higher education, and the private sector.

This is the first Traumatic Injury Prevention Agenda, developed for the third decade of NORA (2016-2026). The Agenda was developed considering information about injuries, the state of the science, and the probability that new information and approaches will make a difference.

As the steward of the NORA process, NIOSH invites comments on the draft *National Occupational Research Agenda for Traumatic Injury Prevention*. Comments expressing support or with specific recommendations to improve the Agenda are requested. A copy of the draft Agenda is available at <https://www.regulations.gov> (search Docket Number CDC-2017-0104).

Frank Hearl,

Chief of Staff,

National Institute for Occupational Safety and Health,

Centers for Disease Control and Prevention.
