**DEPARTMENT OF AGRICULTURE**

**National Agricultural Statistics Service**

**Notice of Intent to Request Revision and Extension of a Currently Approved Information Collection.**

**AGENCY:** National Agricultural Statistics Service, USDA.

**ACTION:** Notice and request for comments.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, this notice announces the intention of the National Agricultural Statistics Service (NASS) to request revision and extension of a currently approved information collection, the Field Crops Objective Yield Surveys. Revision to burden hours will be needed due to changes in the size of the target population, sampling design, and/or questionnaire length. In this renewal the program will be expanded to include several fruit and nut commodities into the Objective Yield program. The title of this renewal will be changed to “Objective Yield Surveys”.

**DATES:** Comments on this notice must be received by [INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER] to be assured of consideration.

**ADDRESSES:** You may submit comments, identified by docket number 0535-0088, by any of the following methods:

**SUPPLEMENTARY INFORMATION:**

**Title:** Objective Yield Surveys.

**OMB Control Number:** 0535-0088.

**Expiration Date of Approval:** July 31, 2018.

**Type of Request:** To revise and extend a currently approved information collection for a period of three years.

**Abstract:** The primary objective of the National Agricultural Statistics Service (NASS) is to collect, prepare and issue State and national estimates of crop and livestock production, prices and disposition as well as economic statistics, farm numbers, land values, on-farm

pesticide usage, pest crop management practices, as well as the Census of Agriculture. The field crops Objective Yield Surveys objectively predict yields for corn, cotton, potatoes, soybeans, and wheat. Sample fields are randomly selected for these crops, plots are laid out, and periodic counts and measurements are taken and then used to forecast production during the growing season. Production forecasts are published in USDA Crop Production reports.

In this approval request, NASS will be including a new group of fruit and nut objective yield surveys. These surveys will be conducted under cooperative agreements with several State Departments of Agriculture. The individual States will be reimbursing NASS for the costs associated with these additional surveys. The surveys will include: California citrus, almonds and walnuts; Florida citrus; and Oregon hazelnuts.

The increased burden hours and sample sizes reported below include these additional surveys.

**Authority:** These data will be collected under the authority of 7 U.S.C. 2204(a).

Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995, Pub. L. 104-13 (44 U.S.C. 3501, et seq.) and Office of Management and Budget regulations at 5 CFR part 1320.

NASS also complies with OMB Implementation Guidance, "Implementation Guidance for Title V of the E-Government Act, Confidential Information Protection and Statistical

Efficiency Act of 2002 (CIPSEA),” *Federal Register*, Vol. 72, No. 115, June 15, 2007, p. 33362.

**Estimate of Burden:** Public reporting burden for this collection of information is estimated to average between 15 and 30 minutes per respondent.

**Respondents:** Farmers, ranchers, or farm managers.

**Estimated Number of Respondents:** 16,000.

**Estimated Total Annual Burden on Respondents:** 4,800 hours.

**Comments:** Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, through the use of appropriate automated, electronic, mechanical, technological or other forms of information technology collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, D.C., November 29, 2017
