Pesticides; Certification of Pesticide Applicators Rule; Reconsideration of the Minimum Age Requirements

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is providing notice to the public that it has initiated a rulemaking process to revise the minimum age requirements in the Certification of Pesticide Applicators rule.

EPA expects to publish a Notice of Proposed Rulemaking in FY 2018 to solicit public input on these proposed revisions to the rule. EPA is also announcing that the implementation dates in the January 4, 2017 **Federal Register** (82 FR 952) (FRL-9956-70); for certifying authorities to submit revised certification plans, and for EPA to act on those plans remain in effect; EPA has no plans to change those implementation dates.

II. What Action is the Agency Taking?

In accordance with Executive Order 13777, titled *Enforcing the Regulatory Reform Agenda*, EPA solicited public comments on regulations that may be appropriate for repeal, replacement or modification as part of the President's Regulatory Reform Agenda efforts through docket [EPA-HQ-OA-2017-0190]. In addition, EPA issued several rules in 2017 to delay the effective date of the final certification rule including one issued on May 15, 2017 (82 FR 22294), that solicited public comment on a proposed 12-month delay of the effective date. Some of the comments received during that comment period included input on specific provisions of the revised Certification of Pesticide Applicators rule (82 FR 952; January 4, 2017) in addition to or instead of comments on the proposed 12-month delay of the effective date.

Through these efforts, EPA received comments on the minimum age requirements in the certification rule, which were discussed at the November 2, 2017, meeting of the Office of Pesticide Program's Federal Advisory Committee, the Pesticide Program Dialogue Committee (PPDC). A transcript of the PPDC meeting will be posted when available on EPA's web site at <https://www.epa.gov/pesticide-advisory-committees-and-regulatory-partners/pesticide-program-dialogue-committee-meeting-5>.

After considering these comments, revisiting the record, and reviewing the applicable statutory authority, EPA has determined that further consideration of the rule's minimum age requirements is warranted through the rulemaking process. EPA is providing notice to the

public that the Agency has begun the internal rulemaking process to address the minimum age requirements in the Certification of Pesticide Applicators rule at 40 CFR 171. EPA expects to publish a Notice of Proposed Rulemaking in FY 2018 to solicit public input on these proposed revisions to the Certification of Pesticide Applicators rule.

EPA is also announcing that the implementation dates in 40 CFR 171.5 of the final rule published on January 4, 2017, for certifying authorities to submit revised certification plans, and for EPA to act on those plans remain in effect; EPA has no plans to change those implementation dates. Therefore, if a certifying authority submits its modified certification plan by March 4, 2020, the existing approved certification plan remains in effect until EPA has approved or rejected the modified plan or March 4, 2022, whichever is earlier.

Authority: 7 U.S.C. §§ 136-136y.

Dated: December 13, 2017.

Acting Principal Deputy Assistant Administrator, Office of Chemical Safety and Pollution Prevention.
