k. Description of Request: The Alabama Power Company (licensee) requests Commission approval for an amendment to its current license to replace the existing automatic spillway crest gates with Obermeyer gates at the project's Thurlow Dam and install a trash boom. The licensee states the proposed work is to eliminate safety hazards to personnel and more effectively manage reservoir levels and spill during flood events.

In order to install the Obermeyer gates and trash boom, the licensee also requests a temporary variance from the normal reservoir elevations for the Thurlow impoundment as required by Article 402 of the license. Article 402 requires, in part, the licensee to operate the project so the maximum drawdown at the Thurlow impoundment does not exceed 1 foot below the normal pool elevation of 288.7 feet mean sea level (msl). The licensee proposes to temporarily draw down the Thurlow impoundment to an approximate elevation of 278.7 feet msl for a five-month period from June 1, 2018 through October 31, 2018, and from June 1, 2019 through October 31, 2019.
