SUPPLEMENTARY INFORMATION: The Seattle Department of Transportation, bridge owner, requested a temporary deviation from the operating schedule for the Fremont Bridge, mile 2.6, and the University Bridge, mile 4.3, both crossing the Lake Washington Ship Canal at Seattle, WA, to facilitate safe passage of participants in the Tenacious Ten run event. The Fremont Bridge provides a vertical clearance of 14 feet (31 feet of vertical clearance for the center 36 horizontal feet) in the closed-to-navigation position. The University Bridge provides a vertical clearance of 30 feet in the closed-to-navigation position. Both bridge clearances are referenced to the mean water elevation of Lake Washington. The normal operating schedule for both the Fremont Bridge and the University Bridge is in 33 CFR 117.1051. During this deviation period, the Fremont Bridge need not open to marine vessels from 8:15 a.m. to 10:15 a.m. on April 21, 2018, and the University Bridge need not open to marine vessel from 8 a.m. to 8:30 a.m. on April 21, 2018. Waterway usage on the Lake Washington Ship Canal ranges from commercial tug and barge to small pleasure craft.

Vessels able to pass through the bridges in the closed-to-navigation positions may do so at any time. Both bridges will be able to open for emergencies, and there is no immediate alternate route for vessels to pass. The Coast Guard will also inform the users of the waterway through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessels can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), both drawbridges must return to their regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.
