Nushagak Cooperative, Inc.; Notice of Preliminary Permit Application Accepted For Filing and Soliciting Comments, Motions to Intervene, and Competing Applications

On March 22, 2018, Nushagak Cooperative, Inc. filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Nuyakuk River Hydroelectric Project (Nuyakuk River Project or project) to be located on the Nuyakuk River, near Dillingham, Alaska. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission. The project would utilize approximately 218 acres of land owned by the U.S. Bureau of Land Management.

The proposed project would consist of the following new facilities: (1) a 100-foot-long, 20-foot-high intake structure; (2) a 1,200-foot-long, 50-foot-wide by 15-foot-tall concrete-lined power conduit; (3) a 100-foot-wide by 100-foot-long powerhouse forebay with a surface area of 0.23 acres; (4) a 100-foot-wide by 60-foot-long concrete powerhouse containing two 5 megawatt (MW) bulb-type turbines for a total installed capacity of 10 MW; (5) a 100-foot-wide, 500-foot-long tailrace discharging to the Nuyakuk River; (6) a project substation; (7) a 135-mile-long, 25 kilovolt transmission line extending from the substation to the communities of Aleknagik, Koliganek, Stuyahok, Ekwok, and Levelock; and (8) appurtenant facilities. The estimated annual generation of the Nuyakuk River Project would be 72.8 gigawatt-hours.
