Endangered and Threatened Species; Issuance of Enhancement of Survival and

Incidental Take Permits January 2, 2017, through December 29, 2017

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: We, the U.S. Fish and Wildlife Service, in accordance with section 10(d) of the Endangered Species Act (ESA) as amended, provide a list to the public of the permits issued under sections 10(a)(1)(A) and 10(a)(1)(B) of the ESA. With some exceptions, the ESA prohibits take of listed species unless a Federal permit is issued that authorizes the taking or is exempted through section 7 of the ESA. Under section 10(a)(1)(A), we issue enhancement of survival permits in conjunction with candidate conservation agreements with assurances (CCAA) and safe harbor agreements (SHA). Section 10(a)(1)(A) also authorizes recovery permits, but this notice is limited to permits issued with CCAAs and SHAs; issued recovery permits will be summarized in a separate notice. Section 10(a)(1)(B) permits authorize take of endangered and threatened species incidental to otherwise lawful activities associated with habitat conservation plans. We provide this list to the public as a summary of our permit issuances for calendar year 2017.

FOR FURTHER INFORMATION CONTACT: For general information about the ESA permit process, contact Karen Anderson, 703–358–2301, karen_anderson@fws.gov.

For information on specific permits, see the contact information below in **Permits Issued**.

SUPPLEMENTARY INFORMATION:

Background

Under the authority of section 10(a)(1)(A) of the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.; ESA), we have issued permits to conduct activities that provide a conservation benefit for endangered or threatened species, or for unlisted species should they become listed in the future, in response to permit applications that we received in conjunction with a CCAA or SHA.

Under section 10(a)(1)(B), we may issue permits for any taking otherwise prohibited by section 9 if such taking is incidental to, and not the purpose of, carrying out an otherwise lawful activity (known as an incidental take permit (ITP)) and the permit applicant submits a habitat conservation plan (HCP) that meets the permit issuance criteria under section 10(a)(2)(B). Typically, applicants seek an ITP to conduct activities such as residential and commercial development, infrastructure development or maintenance, and energy development projects that range in scale from small to landscape-level planning efforts.

We issued the permits listed below between January 17 and December 27, 2017. Under section 10(a)(1)(A), we issued each permit only after we determined that it was

applied for in good faith, that granting the permit would not be to the disadvantage of the listed species, that the proposed activities would benefit the recovery or the enhancement of survival of the species, and that the terms and conditions of the permits were consistent with the purposes and policy set forth in the ESA. Under section 10(a)(1)(B), we issued permits only after we determined that the applicant is eligible and has submitted a complete application and HCP that fully meets the permit issuance criteria consistent with section 10(a)(2)(B).

Permits Issued

Region 1 (Pacific Region: Hawaii, Idaho, Oregon (except for the Klamath Basin), Washington, American Samoa, Commonwealth of the Northern Mariana Islands, Guam, and the Pacific Trust Territories)

The following permits were applied for and issued in Region 1. For more information about any of the following permits, contact the field office that issued the permit by telephone at:

Oregon Fish and Wildlife Office (OR), 503–231–6179

Washington Fish and Wildlife Office (WA), 360–753–9440

Permit Number	Plan or Agreement Type/Field Office	Permittee	Date Issued
