

## **DEPARTMENT OF TRANSPORTATION**

### **Office of the Secretary**

**[Docket No. DOT-OST-2018-0031]**

### **30-Day Notice of Application for New Information Collection Request**

**AGENCY:** Office of the Secretary (OST), Department of Transportation (Department) or (DOT).

**ACTION:** Notice and request for comments

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, the Department of Transportation's (DOT) Office of the Secretary (OST) announces its plan to submit the Information Collection Request (ICR) described below to the Office of Management and Budget (OMB) for its review and approval and invites public comment. Executive Order 12862 directs Federal agencies to provide service to the public that matches or exceeds the best service available in the private sector. In order to work continuously to ensure that our programs are effective and meet our customers' needs, the Department of Transportation (DOT) seeks to obtain OMB approval of a generic clearance to collect feedback on our service delivery. The Federal Register Notice with a 60-day comment period soliciting comments on the following collection of information was published on March 6, 2018 [Vol. 83, No. 44, Page 9575]. No comments were received. The purpose of this notice is to allow for an additional 30 days of public comment.

**DATES:** Comments on this notice must be received by [insert date that is 30 days from date of publication in the Federal Register].

**ADDRESSES:** Your comments should be identified by Docket No. DOT-OST-2018-0031 and may be submitted through one of the following methods:

**SUPPLEMENTARY INFORMATION:**

**Title:** Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

**Abstract:** The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Department's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Department of Transportation and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management. Feedback collected under this generic

clearance will provide useful information, but it will not yield data that can be generalized to the overall population.

The Department will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collections are voluntary.
- The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government.
- The collections are noncontroversial and do not raise issues of concern to other Federal agencies.
- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future.
- Personally identifiable information (PII) is collected only to the extent necessary and is not retained.

Information gathered is intended to be used only internally for general service improvement and program management purposes and is not intended for release outside of the Department (if released, the Department must indicate the qualitative nature of the information).

This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for

assessing potential nonresponse bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

Affected Public: Individuals and households, businesses and organizations, State, Local or Tribal Governments.

*Estimated Number of Respondents:* 6,000

*Estimated Annual Responses:* 2,000

*Estimated Annual Burden Hours:* 2,000 hours

*Frequency:* One-time requirement.

Issued in Washington, DC on May 23, 2018.
