ACTION: Request for Public Comment

TITLE: Temporary Assistance for Needy Families (TANF)

Data Innovations (TDI) Project (New Collection)

The Administration for Children and Families (ACF) within the U.S. Department of Health and Human Services (HHS) proposes to collect information as part of the TANF Data Innovations (TDI) project. TDI is an investment to expand the integration, analysis, and use of TANF data to improve program administration, payment integrity, and outcomes for participants.

TDI will start by assessing the needs and readiness of TANF agencies across the country to set up and operate data systems to support program improvement. A key goal of the needs assessment is to help categorize states' readiness to effectively use data and produce evidence. Informed by this assessment and discussions with key stakeholders, TDI will

support a broad learning collaborative of state agencies and other entities related to the TANF program, including a range of Technical Assistance (TA) options to help states improve their use of TANF and other program data.

This information collection request will consist of a needs assessment survey to be completed by state TANF agency administrators and staff to gather detailed information about their capacities and needs. These data will help HHS to better understand the challenges and barriers states face in using data and research to inform program decision-making, and they will help the TDI team design future technical assistance activities for TANF agencies to address states' challenges.

*Respondents:* State TANF Administrators and TANF agency staff. We expect four respondents per state or territory.
