Background: The Federal Register Notice with a 60-day comment period soliciting comments on the following collection of information was published on June 7, 2018 (83 FR 26538). 49 U.S.C. Section 44702(d) empowers the Administrator of the Federal Aviation Administration to delegate to any properly qualified private person functions related to the examination, inspection, and testing necessary to the issuance of certificates. Procedures manuals are submitted and approved by the FAA as a means to ensure that the correct processes are utilized when performing functions on behalf of the FAA. These requirements are necessary to manage the various approvals issued by the organization and to document approvals issued and must be maintained in order to address potential future safety issues.
