SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the Occupational Safety and Health Onsite Consultation Agreements information collection. The OSHA Onsite Consultation Service Program offers free and confidential advice to small and medium-sized businesses in all States across the country, with priority given to high-hazard worksites. The requirements specified in the Onsite Consultation regulations for cooperative agreements, 29 CFR part 1908, are necessary to ensure uniform delivery of onsite consultation services nationwide. The regulatory procedures specify the activities carried out by State Onsite Consultation Programs funded by the Federal government, as well as the responsibilities of employers who receive onsite consultation services. This information collection has been classified as a revision, because the OSHA is making minor edits to the Safety and Health Program Assessment Worksheet, Form OSHA-33, that reflect new terminology and revised requirements associated with the revised 2012 OSHA Hazard Communication Standard, 29 CFR 1910.1200. Occupational Safety and Health Act of 1970 sections 7(c)(1) and 21(c) authorize this information collection. *See* 29 U.S.C. 656(c)(1) and 670(c).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA

and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1218-0110. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the *Federal Register* on March 30, 2018 (83 FR 13792).

Interested parties are encouraged to send comments to the address shown in the ADDRESSES section within thirty (30) days of publication of this notice in the *Federal Register*. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1218-0110. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other

technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
