Federal Railroad Administration

Petition for Waiver of Compliance

Docket Number FRA-2018-0077

Under part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that on September 24, 2018, Strasburg Rail Road Company (SRC) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 243. FRA assigned the petition Docket Number FRA-2018-0077.

Specifically, SRC seeks relief from 49 CFR part 243, *Training, Qualification, and Oversight, of Safety-Related Railroad Employees*. SRC believes its existing training methodology works well as evidenced by no training-related incidents in the past 60 years. SRC states that given the nature of its operations, (i.e. historic, tourist, and excursion utilizing steam locomotives and vintage passenger equipment), size, and limited resources, 49 CFR part 243 is unnecessary, time consuming, arbitrary, and completely inappropriate. SRC believes that their participation in the Confidential Close Call Reporting System enables their employees to take a proactive role in railroad safety by reporting and recommending solutions to systemic risks on the railroad before harm occurs to any person, property, or equipment.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey
