Title of Collection: Grantee Reporting Requirements for the Graduate Research Fellowship Program

OMB Number: 3145-0223

Expiration Date of Approval: March 31, 2019.

Type of Request: Intent to seek approval to reinstate an information collection.

Abstract:

Proposed Project: The purpose of the NSF Graduate Research Fellowship Program is to help ensure the vitality and diversity of the scientific and engineering workforce of the United States. The program recognizes and supports outstanding graduate students who are

pursuing research-based master's and doctoral degrees in science, technology, engineering, and mathematics (STEM) and in STEM education. The GRFP provides three years of support, to be used during a five-year fellowship period, for the graduate education of individuals who have demonstrated their potential for significant research achievements in STEM and STEM education.

The Graduate Research Fellowship Program uses several sources of information in assessing and documenting program performance and impact. These sources include reports from program evaluation, the GRFP Committee of Visitors, and data compiled from the applications. In addition, GRFP Fellows submit annual activity reports to NSF.

The GRFP Completion report is proposed as a continuing component of the annual reporting requirement for the program. This report, submitted by the GRFP Institution, certifies the completion status of Fellows at the institution (e.g., in progress, completed, graduated, transferred, or withdrawn). The existing Completion Report, Grants Roster Report, and the Program Expense Report comprise the GRFP Annual Reporting requirements from the Grantee GRFP institution. Through submission of the Completion Report to NSF GRFP institutions certify the current status of all GRFP Fellows at the institution as either: In Progress, Graduated, Transferred, or Withdrawn. For Graduate Fellows with Graduated status, the graduation date is a required reporting element. Collection of this information allows the program to obtain information

on the current status of Fellows, the number and/or percentage of Graduate Fellowship recipients who complete a science or engineering graduate degree, and an estimate of time to degree completion. The report must be certified and submitted by the institution's designated Coordinating Official (CO) annually.

Use of the Information: The completion report data provides NSF with accurate Fellow information regarding completion of the Fellows' graduate programs. The data is used by NSF in its assessment of the impact of its investments in the GRFP, and informs its program management.

Estimate of Burden: Overall average time will be 15 minutes per Fellow (8,250 Fellows) for a total of 2,063 hours for all institutions with Fellows. An estimate for institutions with 12 or fewer Fellows will be 1 hour, institutions with 12-48 fellows will be 4 hours, and institutions over 48 Fellows will be 10 hours.

Respondents: Academic institutions with NSF Graduate Fellows (GRFP Institutions).

Estimated Number of Responses per Report: One from each of the 271 current GRFP institutions.

Dated: February 7, 2019.
