SUPPLEMENTARY INFORMATION: Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Bureau of Justice Statistics, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information collection:

- 1) *Type of Information Collection:* Reinstatement of the Census of Medical Examiner and Coroner Offices, with changes, of a previously approved collection for which approval has expired.
- 2) *The Title of the Form/Collection:* 2018 Census of Medical Examiner and Coroner Offices.
- 3) *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* The form number is CMEC-1. The applicable component within the Department of Justice is the Bureau of Justice Statistics, Office of Justice Programs.
- 4) *Affected public who will be asked or required to respond, as well as a brief abstract:*
This information collection is a census of medical examiner and coroner offices. The 2018 survey is revised from the data collection referencing 2004. Respondents will be the medical examiners and coroners (or members of their staff) working in medicolegal death investigation offices.

Abstract:

The 2018 CMEC will focus on the same topics as the 2004: the number and type of medical examiner and coroner offices operating in the U.S., staff at these offices, budget and capital resources, workload, policies and procedures regarding casework, specialized death investigations, records and evidence retention, resources, and

operations. The survey was assessed by a panel of practitioners and subject matter experts. Results from these efforts were used to revise the survey to ensure content was up-to-date and relevant to the medicolegal death investigation system today. The survey was also revised to improve clarity and ease of answering questions. Suggestions resulting from this review were incorporated into the survey and then cognitively tested with 14 medical examiner and coroner offices.

5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* A projected 2,200 respondents will take an

average of 1.5 hours each to complete form CMEC-1, including time to research or find information not readily available. In addition, an estimated 1,100 respondents will be contacted for data quality follow-up by phone at 15 minutes per call.

6) *An estimate of the total public burden (in hours) associated with the collection:* There

are an estimated 3,575 total burden hours associated with this information collection.
