## **II. Background**

This cancellation order follows an October 19, 2018 **Federal Register** Notice of Receipt of Requests from the registrants listed in Table 2 of Unit III. to voluntarily cancel these product registrations. In the October 19, 2018 notice, EPA indicated that it would

issue an order implementing the cancellations, unless the Agency received substantive comments within the 30-day comment period that would merit its further review of these requests, or unless the registrants withdrew their requests. The Agency received two comments on the October 19, 2018 notice. One comment was general in nature and did not merit further review. The other comment was a request from Loveland Products, Inc. to withdraw one cancellation request for registration number WA900005 which now will be retained. The registration numbers below were listed in the October 19, 2018 notice but were listed in another request to cancel **Federal Register** notice so are not listed in this notice. The products and **Federal Register** notice are: **Federal Register** of August 10, 2018 (83 FR 39746; FRL-9980-44): 100-1065, 100-1174, 100-1181, 100-1257, OR040004, OR040005, OR990039, OR990040 and VA110002. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

Section 4(i)(5) of FIFRA (7 U.S.C. 136a-1(i)(5)) requires that all pesticide registrants pay an annual registration maintenance fee, due by January 15 of each year, to keep their registrations in effect. This requirement applies to all registrations granted under FIFRA section 3 (7 U.S.C. 136a) as well as those granted under FIFRA section 24(c) (7 U.S.C. 136v(c)) to meet special local needs. Registrations for which the fee is not paid are subject to cancellation by order and without a hearing.

Under FIFRA, the EPA Administrator may reduce or waive maintenance fees for minor agricultural use pesticides when it is determined that the fee would be likely to cause significant impact on the availability of the pesticide for the use.

In fiscal year 2018, maintenance fees were collected in one billing cycle. In late November of 2017, all holders of either FIFRA section 3 registrations or FIFRA section 24(c) registrations were sent lists of their active registrations, along with forms and instructions for responding. They were asked to identify which of their registrations they wished to maintain in effect, and to calculate and remit the appropriate maintenance fees. Most responses were received by the statutory deadline of January 15, 2018. A notice of intent to cancel was sent in May of 2017 to companies who did not respond and to companies who responded but paid for less than all their registrations. Since mailing the notices of intent to cancel, EPA has maintained a toll-free inquiry number through which the questions of affected registrants have been answered.

In fiscal year 2018, the Agency has waived the fee for 336 minor agricultural use registrations at the request of the registrants. Maintenance fees have been paid for about 16,519 FIFRA section 3 registrations, or about 97% of the registrations on file in October 2017. Fees have been paid for about 1,838 FIFRA section 24(c) registrations, or about 86% of the total on file in October 2017. Cancellations for non-payment of the maintenance fee affect 135 FIFRA section 3 registrations and 7 FIFRA section 24(c) registrations. These cancellations can be found in Table 3 of Unit III. Cancellations for companies paying the fee at one of the capped payment amounts are considered voluntary cancellations since the registration could be maintained without an additional fee

payment. These cancellations are subject to a 30-day comment period and are listed in Table 1 of Unit III.

The cancellation orders generally permit registrants to continue to sell and distribute existing stocks of the canceled products until January 15, 2019, 1-year after the date on which the fee was due. Existing stocks already in the hands of dealers or users, however, can generally be distributed, sold, or used legally until they are exhausted. Existing stocks are defined as those stocks of a registered pesticide product which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation order.

The exceptions to these general rules are cases where more stringent restrictions on sale, distribution, or use of the products have already been imposed, through special reviews or other Agency actions. These general provisions for disposition of stocks should serve in most cases to cushion the impact of these cancellations while the market adjusts.

### **III. What Action is the Agency Taking?**

This notice announces the cancellation, as requested by registrant, of products registered under FIFRA section 3 (7 U.S.C. 136a). These registrations are listed in sequence by registration number in Table 1 of this unit.
