Federal Officer, NIOSH, CDC, 1600 Clifton Road, N.E., Mailstop
E-20, Atlanta, Georgia 30329, Telephone (513)533-6800, Toll Free
1(800) CDC-INFO, E-mail ocas@cdc.gov.

SUPPLEMENTARY INFORMATION:

BACKGROUND: The Advisory Board was established under the
Energy Employees Occupational Illness Compensation Program Act
of 2000 to advise the President on a variety of policy and
technical functions required to implement and effectively manage
the new compensation program. Key functions of the Advisory
Board include providing advice on the development of probability
of causation guidelines which have been promulgated by the
Department of Health and Human Services (HHS) as a final rule,
advice on methods of dose reconstruction which have also been
promulgated by HHS as a final rule, advice on the scientific
validity and quality of dose estimation and reconstruction

efforts being performed for purposes of the compensation program, and advice on petitions to add classes of workers to the Special Exposure Cohort (SEC). In December 2000, the President delegated responsibility for funding, staffing, and operating the Advisory Board to HHS, which subsequently delegated this authority to the CDC. NIOSH implements this responsibility for CDC.

The Advisory Board's charter was issued on August 3, 2001, renewed at appropriate intervals, rechartered under Executive Order 13811 on February 12, 2018, and will terminate on September 30, 2019.

PURPOSE: This Advisory Board is charged with a) providing advice to the Secretary, HHS, on the development of guidelines under Executive Order 13179; b) providing advice to the Secretary, HHS, on the scientific validity and quality of dose reconstruction efforts performed for this program; and c) upon request by the Secretary, HHS, advising the Secretary on whether there is a class of employees at any Department of Energy facility who were exposed to radiation but for whom it is not feasible to estimate their radiation dose, and on whether there is reasonable likelihood that such radiation doses may have endangered the health of members of this class.

MATTERS TO BE CONSIDERED: The agenda will include discussions on the following: NIOSH Program Update; Department of Labor

Program Update; Department of Energy Program Update; SEC Petitions Update; SEC Petitions for: Sandia National Laboratory (Albuquerque, New Mexico, 1997-2011), Area IV Santa Susanna Field Laboratory (Ventura County, California, 1991-1993), Superior Steel Company (Carnegie, Pennsylvania), and Idaho National Laboratory (Scoville, Idaho, 1963-1970); and a Board Work Session. Agenda items are subject to change as priorities dictate.

The Chief Operating Officer, Centers for Disease Control and Prevention, has been delegated the authority to sign Federal Register notices pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.

Sherri A. Berger,

Chief Operating Officer,

Centers for Disease Control and Prevention.
