National Agricultural Statistics Service

Title: Hawaii Crop or Livestock Loss Survey

OMB Control Number: 0535-0264

Summary of Collection: The primary objectives of the National Agricultural Statistics Service (NASS) are to prepare and issue official State and national estimates of crop and livestock production, disposition and prices, economic statistics, and environmental statistics related to agriculture and to conduct the Census of Agriculture and its follow-on surveys. NASS will conduct a survey of agricultural operations in Hawaii. Each selected farmer or rancher will be asked to provide data on 1) the area (acres or square feet) affected by natural disasters or weather conditions in 2018, 2) the area (acres or square feet) affected by natural disasters or weather conditions in 2018 that was replanted, and 3) the number of head of livestock affected by natural disasters or weather conditions in 2018. General authority for these data collection activities is granted under U.S.C. Title 7, Section 2204.

Need and Use of the Information: The year 2018 saw multiple disaster events in Hawaii. Disasters ranged from volcano eruption over the east side of the Big Island to several flooding rains across the Big Island, Maui, Oahu, and Kauai. The Hawaii Department of Agriculture (HDOA) has entered into a cooperative agreement with NASS to conduct a Crop or Livestock Loss Survey.
