- l. Description of Request: The licensee is proposing to surrender its exemption. The project only operated for 10 test days in 1985. The project never received the water rights from the Oregon Department of Water Resources to operate a hydroelectric facility. The project is not allowed to operate and the exemptee has removed the ability to generate hydroelectricity from its control system. The facilities would remain in its current condition because all of the equipment is necessary for operating the existing water supply system.
