SUPPLEMENTARY INFORMATION:

Title: FHWA Environmental Excellence Awards

Background: In 1995 FHWA established the biennial Environmental Excellence Awards to recognize

partners, projects, and processes that use FHWA funding sources to go beyond environmental compliance and achieve environmental excellence. The Environmental Excellence Awards also recognize partners, projects, and processes that exemplify innovation and commitment to the human environment, and organization and process innovation. Awardees must make an outstanding contribution that goes beyond traditional transportation projects and that encourages environmental stewardship and partnerships to achieve a truly multi-faceted, environmentally sensitive transportation solution.

Award: Anyone can nominate a project, process, person or group that has used FHWA funding sources to make an outstanding contribution to transportation and the environment. The nominator is responsible for submitting an application via the FHWA Environmental Excellence Awards website that gives a summary of the outstanding accomplishments of the entry. The collected information will be used by FHWA to evaluate the project, showcase environmental excellence, and enhance the public's knowledge of environmental stewardship in the planning and project development process. Nominations will be reviewed by a panel of judges from varying backgrounds. It is anticipated that awards will be given every 2 years. The winners are presented plaques at an awards ceremony.

Respondents: Anyone who has used FHWA funding sources in the 50 States, U.S. territories, and the District of Columbia.

Frequency: The information will be collected biennially.

Estimated Average Burden per Response: 8 hours per respondent per application.

Estimated Total Annual Burden Hours: It is expected that the respondents will complete approximately 150 applications for an estimated total of 1200 annual burden hours.
