The Pacific Council's Salmon Advisory Subpanel will be invited to attend in order to provide additional input and comments on the Workgroup's draft Risk Assessment report as needed. The National Marine Fisheries Service (NMFS) reinitiated Endangered Species Act (ESA) consultation on the effect of Pacific Council-area ocean salmon fisheries on

SRKW. The Pacific Council formed the Workgroup to reassess the effects of Pacific Council-area ocean salmon fisheries on the Chinook salmon prey base of SRKW. The Workgroup has held multiple meetings since their inception. Materials presented during past Workgroup meetings may be found on the NMFS West Coast Regional website (<https://www.fisheries.noaa.gov/west-coast/southern-resident-killer-whales-and-fisheries-interaction-workgroup>). Agendas and meeting notices can be found on the Pacific Council's website at <https://www.pcouncil.org>.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.
