Abstract: The Office of Indian Energy and Economic Development (IEED) administers and manages the energy resource development grant program under the Energy and Minerals

Development Program (EMDP). Congress may appropriate funds to EMDP on a year-to-year basis. When funding is available, IEED may solicit proposals for energy resource development projects from Indian Tribes and Tribal energy resource development organizations for use in carrying out projects to promote the integration of energy resources, and to process, use or develop those energy resources on Indian land. The projects may be in the areas of exploration, assessment, development, feasibility, or market studies. Indian Tribes that would like to apply for an EMDP grant must submit an application that includes certain information, and must assist IEED by providing information in support of any National Environmental Policy Act (NEPA) analyses. Upon acceptance of an application, a Tribe must then submit one – to two – page quarterly progress reports summarizing events, accomplishments, problems and/or results in executing the project. Quarterly reports assist IEED staff with project monitoring of the EMDP program and ensure that projects are making adequate progress in achieving the project's objectives.
