SUPPLEMENTARY INFORMATION:

Background and Purpose

As part of the Oil Pollution Act of 1990, Congress passed the Oil Terminal and Oil Tanker Environmental Oversight and Monitoring Act of 1990 (the Act), 33 U.S.C. 2732, to foster a long-term partnership among industry, government, and local communities in overseeing compliance with environmental concerns in the operation of crude oil terminals and oil tankers.

The President has delegated his authority under 33 U.S.C 2732(o) respecting certification of advisory councils, or groups, subject to the Act to the Secretary of the Department of Homeland Security. Section 8(g) of Executive Order 12777, (56 FR 54757, October 22, 1991), as amended by section 34 of Executive Order 13286 (68 FR 10619, March 5, 2003). The Secretary redelegated that authority to the Commandant of the USCG. Department of Homeland Security Delegation No. 0170.1, paragraph 80 of section II. The Commandant redelegated that authority to the Chief, Office of Marine Safety, Security and Environmental Protection (G-M) on March 19, 1992 (letter #5402).

The Assistant Commandant for Marine Safety and Environmental Protection (G-M), redelegated recertification authority for advisory councils, or groups, to the Commander, Seventeenth Coast Guard District on February 26, 1999 (letter #16450).

On July 7, 1993, the USCG published a policy statement, "Alternative Voluntary Advisory Groups, Prince William Sound and Cook Inlet" (58 FR 36504), to clarify the factors considered in making the determination as to whether advisory councils, or groups, should be certified in accordance with the Act.

On September 16, 2002, the USCG published a policy statement, 67 FR 58440, which changed the recertification procedures such that applicants are required to provide the USCG with comprehensive information every three years (triennially). For each of the two years between the triennial application procedures, applicants submit a letter requesting recertification that includes a description of any substantive changes to the information provided at the previous triennial recertification. Further, public comment is only solicited during the triennial comprehensive review.
