SMALL BUSINESS ADMINISTRATION

Privacy Act of 1974; System of Records

AGENCY: U.S. Small Business Administration.

ACTION: Notice of a New System of Records.

SUMMARY: The U.S. Small Business Administration (SBA) proposes to add a new system of records entitled Small Business Investment Company Information System (SBA # 40) to its inventory of records systems subject to the Privacy Act of 1974, as amended. Publication of this notice complies with the Privacy Act and the Office of Management and Budget (OMB) Circular A-108 requirement for agencies to publish a notice in the Federal Register whenever the agency establishes a new system of records. The SBA is in the process of modernizing its technology supporting the Small Business Investment Company (SBIC) program to further enhance the SBA's regulatory oversight and risk management of the SBIC program using modern private equity and alternative investment analytics and tools. The technology includes a Customer Relationship Management (CRM) tool, an investment and risk management tool, an information portal, and a data warehouse with associated Application Programming Interfaces (APIs). Some records may be maintained electronically and in paper format for desktop access or if required for legal purposes.

DATES: This action will be effective without further notice on September 1, 2019 unless comments are received that would result in a contrary determination.

ADDRESSES: Submit written comments to Marja Maddrie, Business Operations Officer, Office of Investment and Innovation, U.S. Small Business Administration, 409 3rd Street SW, Suite 6300, Washington, DC, 20416.

SUPPLEMENTARY INFORMATION: The Privacy Act of 1974 (5 U.S.C. 552a), as amended, embodies fair information practice principles in a statutory framework governing the means by which Federal agencies collect, maintain, use, and disseminate individuals' personal information. The Privacy Act applies to records about individuals that are maintained in a "system of records." A system of records is a group of any records under the control of a Federal agency from which information is retrieved by the name of an individual or by a number, symbol or other identifier assigned to the individual. The Privacy Act requires each Federal agency to publish in the Federal Register a System of Records Notice (SORN) identifying and describing each system of records the agency maintains, the purposes for which the Agency uses the Personally Identifiable Information (PII) in the system, the routine uses for which the Agency discloses such information outside the Agency, and how individuals can exercise their rights related to their PII information.
