Proposed Project

Annual Reporting of the Rape Prevention and Education (RPE) Program:
CE19-1902 Cooperative Agreement - New - National Center for Injury

Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

CDC's Division of Violence Prevention (DVP) provides national leadership in prevention of sexual violence (SV) perpetration and victimization before it begins (i.e., primary prevention). DVP administers the RPE Program, which provides funding to health departments in all 50 states, the District of Columbia (DC), Puerto Rico, Guam, the U.S. Virgin Islands, and the Commonwealth of Northern Mariana Islands. The CDC seeks OMB approval for three years to collect information related to implementation and outcomes annually from recipients funded under the Rape Prevention and Education (RPE): Using The Best Available Evidence for Sexual Violence Prevention cooperative agreement.

RPE Program recipients or designated delegates will submit data annually into the online data system, DVP Partners Portal. Recipients will monitor and report progress on their goals, objectives, and activities, as well as relevant information on the implementation of their prevention strategies, outcomes, evaluation, and state action plan.

Information to be collected will provide crucial data for program performance monitoring. Information collected will allow CDC to help ensure consistency in documenting, enhancing accountability of the use of federal funds, providing timely program reports and

responses to information requests, such as Congressional requests mandated by the authorizing legislation, improve real-time communications between CDC and RPE recipients, and strengthening CDC's capacity to provide responsive data-driven technical assistance and to monitor and evaluate recipients' progress and performance.

Submission of the Annual Progress Report is required for cooperative agreement grantees. The total estimated annualized burden hours are 440. There is no cost to respondents other than their time.

Estimated Annualized Burden Hours

Type of respondents	Form Name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
RPE-funded Health Departments (State, DC, and Territories) and their Designated Delegates	Annual Reporting-Initial Population	55	1	4
	Annual Reporting-Subsequent Reporting	55	2	2
